The Moulding Glossary

This catalog contains illustrations of the moulding profiles available from Peninsula Hardwoods. Each illustration is scaled at 100% with the face shown in a prospective view. The cross-sections at the left provide typical uses of the profile that are found in the catalog sections that follow and are grouped by profile type as identified on the right of the page.

The profiles presented in this catalog are available in a variety of hardwoods. To check on availability, to have a custom profile made, or for any other information not listed in our catalog please contact our sales staff.
